SPEAKERS

Lukeisha, Child

Lukeisha 00:19

Okay, my friends before we head out to our adventure, we're going to go over some of the ways we can be safe on our adventure. Let's start with Rosie.

Child 00:36

Poison ivy and wild parsnips.

Lukeisha 00:37

Yes, poison ivy and wild parsnips! How can we identify poison ivy?

Child 00:42

Poison ivy has three leaves.

Lukeisha 00:46

So what do we do if we see poison ivy or wild parsnip?

Child 00:51

Stay away from it.

Lukeisha 00:52

We stay away from it. Any other safety rules?

Child 00:57

Don't go in deep water.

Lukeisha 00:58

Don't go in deep water. That's a really good one because we'll be exploring along the shore.

Lukeisha 01:15

Stay at the water where it's not past your knees.

Lukeisha 01:26

How far are you going in the water?

Child 01:28

Not past your knees.

Lukeisha 01:35

What about climbing trees?

Child 01:38

Don't climb on baby trees or dead branches.

Lukeisha 01:48

And how high do we climb?

Child 01:51

Only until you feel safe?

Lukeisha 01:52

Until you feel safe. If you climb and you look down and you say, "Oh, that's too high for me." That means you're not comfortable.

Lukeisha 02:23

So everybody has their knives and ready to whittle. So, we're going over some safety tips because I want everybody to be safe. I don't want any accidents with the knife. So, we'll start with Rosie.

Child 02:42

You have to be careful because you could cut yourself.

Lukeisha 02:46

And how much space do we need?

Child 02:50

We need a lot of space. So when you take the knife, we don't swing it.
